[26] Standard: This suite, available only through volume licensing channels, includes core applications and perspectives. [27] Office 365 Main article: Microsoft Office 365 Office 365 subscription services, which were previously aimed at business and business users, have been expanded for Office 2016 to include new plans aimed at home use. Subscriptions allow multiple users who use software such as of service. Several plans are available for Office 365, some of which also include Services, such as 1 TB of OneDrive storage space and 60 minutes of Skype per month on the premium home level. Design The User Interface Design of Office 2016 for Windows is relatively unchanged by its predecessor, Microsoft Office 2013. It maintains the flat design that has been introduced together with the language of the subway design, even if with some changes to the layout, to conform Microsoft Office Mobile design. [29] When Office 2016 was released, he arrived with three themes. The predefined theme, known as "colorful", has a solid color on the upper band of the ribbon, corresponding to the color of the application of the office used, for example, a solid dark blue is present prominently in Microsoft Word. The theme had been described as useful to make the header of the card more distinct. [30] In addition, the "white" themes that "dark gray" of Office 2013 are also available, although new backgrounds have not been added, nor existing backgrounds have been removed. [30] A fourth "black" theme was added as part of an update in January 2016. [31] The update was not released to users of traditional editions. [14] Criticism of 13 November 2018, a report started by the government of the Netherlands showed that Microsoft Office 2016 and Office 365 do not respect the GDPR, the European Privacy Statute. [32] ONENOTE 2016 and PUBLISHER 2016 do not include the Tell Me Search function which has been added to all the other office apps. In response to the feedback, Microsoft later added the Tell Me box to the version of Onenote of the Windows (UWP) platform. Microsoft Docs. Microsoft.
